DELTA, GUNNISON, HINSDALE, OURAY & SAN MIGUEL COUNTIES

ADMINISTRATIVE ORDER 2020-12 Summaries of Consultation/Division 4 Water Court

C.R.S. 37-92-302(4) requires the Division Engineer to file his/her Summary of Consultation within 35 days of the case being referred to the Water Referee unless the referee extends such time. In a large number of water cases within Water Division 4 this is not possible because of factors relating to weather, location and ability to access the structure sites. Therefore, it is ordered that the Division Engineer shall file his/her Summaries of Consultation as soon as reasonably possible. If the Referee feels that there has been unreasonable delay in any particular case he/she may enter an order setting a deadline for filing.

Dated this 8th day of May, 2020.
