Quick Facts

1. Not a New Trial: you will not be allowed to present new evidence or call witnesses on appeal.

2. An Appeal is a review of the Judge's decisions in your case. Not the conduct of opposing attorneys or witnesses.

3. Issues: the alleged mistakes the DC made in managing or deciding the case.

4. The CoA will look at the issues to see if there were any errors in the law, or to see if the court's findings were clearly wrong, or if the court abused their discretion.

5. Roles: The appellant (Aplt) is the person who brings the appeal, the appellee (Aple) is the person who responds to the appeal.
