Name and address of land owners upon which water will be placed to beneficial use.: Charles W. Tidd and Barbara T. Tidd, 28988 County Road 65, Moffat, CO 81143 and Delmer E. Frees, David L. Frees, George A. Frees and Shirley A. Frees, 26814 County Road 61, Moffat, CO 81143.

21CW3014 Application For Change of Surface Water Right and Appropriative Rights of Exchange in Mineral, Archuleta, Rio Grande, Conejos and Alamosa Counties. **1. Name, Address and Telephone Number of Applicant:** United States of America, Department of the Interior. Bureau of Land Management, San Luis Valley Field Office 1313 Highway 160, Monte Vista, CO 81144. **2. Introduction and Background.** The Bureau of Land Management (BLM) acquired the trans-basin Treasure Pass Diversion Ditch (ditch) and its associated water right in April 2019. BLM is simultaneously filing two water right applications to accomplish its management objectives for this ditch. In Water Division 3, BLM is filing an application to change the historic Treasure Pass Diversion Ditch water right to types of use and places of use that will support BLM's resource management objectives along with claiming appropriative rights of exchange. In Water Division 7, BLM is filing an application for a junior water right to be diverted at the ditch along with appropriative rights of exchange. The BLM is pursuing these dual applications because BLM has demands in excess of the historic Treasure Pass Diversion Ditch water right of 7 cubic feet per second (cfs). These demands are partially satisfied by diversions from the ditch under a junior water right. The historical diversion records for the ditch show frequent diversions in the range between 7 cfs and 13 cfs, demonstrating that there is physical capacity in the ditch above 7 cfs, and that diversions above 7 cfs were part of the historical operating practice. This application, which focuses on the change of the historical water right, addresses diversion diversions of up to 7 cfs that were made under the historical water right. The changed historical water right and the new junior water right will support wetlands habitat and wildlife management at BLM's Blanca Wetlands Area (Blanca Wetlands) and South San Luis Lakes Area (SSLA). To deliver the changed water right and new junior water right in the correct timing and amount to support wetland habitat and wildlife management objectives, the applications request water court confirmation of the storage and subsequent release of the changed historical water right and new junior water right for beneficial use. The reservoirs in which changed historical water right and junior water right will be stored include reservoirs owned and managed by Colorado Parks and Wildlife (CPW) and other reservoirs where BLM has agreements for storage space. In addition, the applications request water court confirmation of exchange operations involving the changed historical water right and junior water right. These operations are required to move diverted water into storage and to deliver direct flow and stored water to the place of use at Blanca Wetlands and SSLA. **3. Water Court Jurisdiction and Venues.** The appropriate venue in which to adjudicate a change application for a trans-basin ditch is Water Division No. 3, the basin of use. See *Department of Natural Resources v. Ogburn*, 560 P.2d 4 at 5 (Colo. 1977). Statements of Opposition should be filed in Water Division No. 3. The appropriate venue in which to adjudicate a junior water right for an existing trans-basin ditch is Water Division No. 7, the basin of diversion. (*See id.*) Statements of Opposition should be filed in Water Division 7. To provide broad inquiry-level notice, the change of water right application and the junior water right application will be noticed in both Water Division 3 and Water Division 7. Both applications also include an attachment showing the application that is filed simultaneously in the other Water Division, so that any inquiring party reviewing the application will be able to see all pending water rights applications concerning Treasure Pass Diversion Ditch. **4. Previous Decree Information for Water Right to be Changed.** **A. Water Rights:** The BLM purchased 100% interest in and to the Treasure Pass Diversion Ditch and its associated water right. **B. Original Decree:** Civil Action 73 and 308,

District Court In and For Archuleta County, Colorado. **C. Adjudication Date:** April 19, 1962. **D. Appropriation Date:** August 1, 1922. **E. Priority:** Priority No. 284 in Water District No. 29. **F. Use:** For the irrigation of the said eight hundred (800) acres of land located in Water District No. 20 of Colorado, and as supplemental to and in addition to the decreed rights for the same land in Water District No. 20. **G. Amount:** 7.0 cfs, absolute **H. Source:** Unnamed tributaries to Wolf Creek, which are tributary of the West Fork of the San Juan River. **I. Decreed Points of Diversion:** The said ditch is located on unsurveyed land, but a monument was erected on the top of what is known as Wolfe Creek Pass, in Mineral County, Colorado, consisting of a post 4” in diameter set in the ground surrounded to a height of 2 1/2 feet by a mound of flat rock. The headgate of the North Feeder Lateral is located at a point on the south bank of a tributary to Wolfe Creek, a tributary of the West Fork of the San Juan River, from which it derives its supply of water, whence the monument bears South 50degrees 26’ East 2,226.3 feet. The headgate of the South Feeder Lateral is located at a point on the north bank of a tributary to Wolfe Creek, a tributary of the West Fork of the San Juan River, from which it derives its supply of water, whence the aforesaid monument bears North 41degrees 04’ East 3,347.8 feet in Mineral County, Colorado. **J. Place of Delivery:** *Description from the CA308 decree:* Claim is made to convey the water by the two feeder laterals mentioned into the main channel of Treasure Pass Diversion Ditch and thence conveyed across Wolf Creek Pass and deliver the water into the West Fork of Pass Creek, and thence to the Rio Grande River to the San Luis Valley, where its equivalent will be diverted into ditches utilized by Claimants for the irrigation of their land by the Rio Grande River. *BLM Description of Facilities Outlined in the CA308 Decree:* The North Feeder Lateral and the South Feeder Lateral are constructed at a grade that carries the water from the diversion points to Wolf Creek Pass. At Wolf Creek Pass, the two feeders join, and the water is carried across the pass in a common ditch and measured by a flume equipped with satellite telemetry. Because this water is trans-basin water, diverted from the San Juan basin into the Rio Grande basin, one hundred percent (100%) of the water delivered to the Rio Grande basin may be consumptively used to extinction. The GPS coordinates for the measurement device on the ditch are NAD 83 Zone 13 340870mE 4149936mN **K. Place of Use:** Approximately eight hundred (800) acres of land owned by Claimants located in Township 40 North, Range 6 East, N.M.P.M. in the County of Rio Grande and the State of Colorado. **5. Change of use.** **A. Summary.** BLM seeks to change the Treasure Pass Diversion Ditch water right described in Paragraph 4 from the original irrigation use to multiple uses, including irrigation, described below. BLM also seeks to change the place of use to the locations described below. **B. Decreed Points of Diversion:** The points of diversion will remain as set forth above in Paragraph 4I. **C. Place of Delivery.** The initial place of delivery will continue, as it has historically, to be the West Fork of Pass Creek, as described in Paragraph 4J. After diverted water is released to West Fork Pass Creek, it will be delivered to the places of storage and places of use described below. **D. Places of Storage.** BLM requests water court authorization to store the changed water right in any of the following reservoirs, including authorization to carry over stored water in these facilities from one water year to the next. BLM will not store water in any of the reservoirs listed below without the written permission of the reservoir owner. This application does not request an independent water storage right in any of the reservoirs listed below and instead requests authorization to store water pursuant to an agreement between the reservoir owner and BLM.

E. Places of Use.

Within Blanca Wetlands, as described below:

Township 38 North, Range 11 East N.M.P.M:

Section 1, NW 1/4, NE 1/4, SE 1/4 of Section 2, Section 12, NW 1/4, NE 1/4, SE 1/4, N 1/2 of the SW 1/4, of Section 13, and NE 1/4 of Section 24.

Township 38 North, Range 12 East, N.M.P.M:

W 1/2 of Section 4, Sections 5, 6, 7, 8, 17 W 1/2 Section 9, and N 1/2 of Section 18.

Township 39 North, Range 12 East, N.M.P.M:

SE 1/4 of the SW 1/4 and SW 1/4 of the SE 1/4 of Section 30, E 1/2 of the W 1/2 and the E 1/2 of Section 31, and NW 1/4, SW 1/4, and SE 1/4 of Section 32.

Within the SSLA, as described below:

Township 39 North, Range 12 East N.M.P.M: SE 1/4 Section 18; All of Section 19.

Township 39 North, Range 11 East, N.M.P.M: SE 1/4 Section 24

F. Type of Use. BLM seeks add the following uses to the historically decreed irrigation use: irrigation of wetlands, marshes, meadows, and playas areas; creation and support of fish and wildlife habitat in ponds, diked areas, and natural basins; wildlife watering; recreation; non-potable domestic use; piscatorial and fish propagation; augmentation use; replacement of evaporative losses necessary to effectuate the aforementioned uses; storage in reservoirs listed in Paragraph 5.D. necessary to effectuate the aforementioned uses; and exchanges necessary to effectuate the aforementioned uses. The augmentation use includes, but is not limited to, the following: Use of the changed water right as an augmentation water source for the Blanca Wetlands augmentation plan decreed in case number 2002 CW 38 B. After this case is decreed, BLM will follow the Notice of Use procedure described in Paragraph 13.C.1 of the 2002 CW 38B decree to add the changed water right to the authorized list of augmentation water sources.

Use of the changed water right through a BLM contract with one or more Subdistricts of the Rio Grande Water Conservation District for the purpose of remedying injurious depletions to the Rio Grande and Conejos River caused by groundwater well operations. This use will occur pursuant to a substitute water supply plan approved by Colorado Division of Water Resources or pursuant to an augmentation plan approved by District Court, Water Division 3. Use of the changed water right as a source of water for the San Luis Valley Water Conservancy District's (District) Augmentation Program for the augmentation of out of priority diversions by Participants located within the District's boundaries, as those boundaries may change from time to time in accordance with the statute. The District operates its Augmentation Program pursuant to the decrees entered in Case Nos. 84CW16, 93CW43, 94CW62, 03CW41, 05CW13, 07CW63, 09CW34 and 14CW3011, all decreed in District Court, Water Division No. 3. Other augmentation uses that are approved pursuant to a substitute water supply plan approved by Colorado Division of Water Resources or pursuant to an augmentation plan approved by District Court, Water Division 3. BLM also seeks water court confirmation that it is authorized to make a fully consumptive first use of the changed water right or to use, reuse, and successively use and dispose of the water to extinction for the purposes described in this application. **6.**

Appropriative Rights of Exchange. **A. Source of Water.** The changed Treasure Pass Diversion Ditch water right described in Paragraphs 4 and 5. **B. Place of Use:** Identical to those set forth in

Paragraphs 5E. **C. Type of Use:** Identical to those set forth in Paragraphs 5F. **D. Treasure Pass Diversion Ditch to Beaver Park Reservoir Exchange** 1. Exchange From Point: The confluence of the South Fork of the Rio Grande with Beaver Creek, located in the SW 1/4 SE 1/4, Sec. 17, T39N R3E, NMPM. UTM Coordinates: NAD 83, Zone 13, 351413mE 4165149mN 2. Exchange To Point: Located at a point whence the East 1/4 corner of Section 28, T39N, R3E, NMPM bears North 79degrees13' East 2,065.45 feet. Reservoir is located in Sec. 27, 28, 33, and 34, T39N, R3E, and Sec.3, T38N, R3E, NMPM. 3. Amount Claimed: 7.0 cfs, conditional 4. Date of Appropriation: Date this application is filed with the water court. 5. Date Exchange Made Absolute: Not Applicable. **E. Closed Basin Project Canal Exchange** 1. Exchange From Point: The confluence of the Closed Basin Project Canal with the Rio Grande, located in the SW 1/4 SW 1/4, Sec. 28, T37N R11E, NMPM. UTM Coordinates: NAD 83, Zone 13, 430940mE 4141480mN 2. Exchange To Reach: Any location along the Closed Basin Project Canal that is adjacent to BLM's Blanca Wetlands Area and South San Luis Lakes Area. This reach includes BLM Turnouts CHO3 and CHO4 as follows: Turnout CHO3: NE 1/4 SW 1/4, Section 4, Township 38 North, Range 12 East, N.M.P.M. UTM Coordinates: NAD 83, Zone 13, 440976mE 4157892mN. Turnout CHO4: SW 1/4 SW 1/4, Section 9, Township 38 North, Range 12 East, N.M.P.M. UTM Coordinates: NAD 83, Zone 13, 440447mE 4156005mN. The upper terminus of the Exchange To Reach is as follows: NE 1/4 NW 1/4, Section 6, T39N R12E, N.M.P.M. UTM Coordinates: NAD 83, Zone 13 437990mE 4168640mN. This location is commonly known as the point where the Closed Basin Project Canal crosses under Alamosa County Road 6 North. The lower terminus of the Exchange To Reach is as follows: SW 1/4 SW 1/4, Section 17, T38N R12E, N.M.P.M. UTM Coordinates: NAD 83, Zone 13 438742mE 4154182mN. 3. Amount Claimed: 8 cfs, conditional. 4. Date of Appropriation: Date this application is filed with the water court. 5. Date Exchange to be Made Absolute: Not Applicable 6. Structures Involved In Exchange: To provide a source of water for the exchange, water from the changed water right may be released directly from the Treasure Pass Diversion Ditch or from any of the reservoirs listed in Paragraph 5.D. of this application. Exchange operations may also involve releasing water from the aforementioned facilities to the headgate of the Chicago Ditch, operated by Alamosa National Wildlife Refuge. An equivalent volume of Closed Basin Project mitigation water, otherwise destined for Alamosa National Wildlife Refuge, will be diverted from the Exchange To Reach. The Chicago Ditch (WDID 2000575) is described as follows: Original Decrees: May 1, 1896 and October 15, 1934. Decreed Point of Diversion: A point on the east bank of the Rio Grande-Del Norte from which it derives its supply of water, whence the one-quarter corner between Sections Eleven (11) and Twelve (12) in Township Thirty-seven (37) North, and in Range Ten (East) of the New Mexico Principal Meridian bears North 01degrees 12' East 1400.3 feet. **F. Use of Facilities Owned By Other Parties.** BLM will not utilize any of the facilities listed in Paragraph 5.D. of this application without the written permission of the facility owner. This application does not request an independent water right in any facilities listed in Paragraph 5.D. and instead requests authorization to exchange water pursuant to an agreement between the facility owner and BLM. **7. Names and Addresses of Owners, Structures and of Land on which Structures Are Located:** Barry Beal, High Valley Ranch, LLC, 104 S. Pecos St., Midland, TX 79701.
