CASE NO. 2022CW3024 MESA COUNTY, WEST CREEK, DOLORES RIVER, William R. Vanover, P.O. Box 1256, Alice, TX 78333, c/o Kirsten M. Kurath, 858 Grand Ave., Suite 1, Grand Junction, CO 81501, (970) 242-6262, kmkurath@wth-law.com
APPLICATION TO MAKE ABSOLUTE, OR, IN THE ALTERNATIVE, FOR A FINDING OF REASONABLE DILIGENCE

Structure: Rolland Diversion. Decree: April 19, 2016, Case No. 2015CW3110, District Court, Water Div. No. 4. Subsequent Decrees: Not Applicable. Legal Description: Water will be diverted at the following alternate points of diversion: Point of Diversion No. 1: A point located approximately 384 feet from the South section line and 583 feet from the West section line of Section 12, Township 15 South, Range 102 West, 6th P.M., in the SW1/4 SW1/4 SW1/4 of said Section 12. Point of Diversion No. 2: A point located approximately 1,191 feet from the South section line and 688 feet from the West section line of Section 12, Township 15 South, Range 102 West, 6th P.M., in the NE1/4 SW1/4 SW1/4 of said Section 12. See Exhibit A attached to the Application. Source: West Creek, tributary to the Dolores River. App. Date: June 1, 2013.

Amount: 0.85 c.f.s., conditional. Applicant will divert this amount at either or both of the alternate points of diversion described above. The total combined diversions at both of the points of diversion shall be limited to 0.85 c.f.s. Uses: Irrigation of up to 34 acres. The land to be irrigated is located within the real property described on Exhibit B, attached to the Application ("Property"). A detailed outline of what has been done toward the completion or for completion of the appropriation and application of water to beneficial use as conditionally decreed, including expenditures, is contained in the Application. Claim to Make Water Right Absolute: This April the DeMilles diverted at a combined rate of 2.36 c.f.s. from Point of Diversion No. 1 and Point of Diversion No. 2. The water diverted was used to irrigate the Property and was diverted in priority when there was no call on West Creek. The combined diversion rate accounts for both the existing absolute water rights decreed to the alternate points of diversion, 1 c.f.s. of the Gill Ditch Admin No. 300079.12174 and 0.5 c.f.s. of the Unawep Cattle Range Ditch No. 3 Admin No. 27777.23177, and the Rolland Diversion. Therefore, the full 0.85 c.f.s. of the Rolland

Diversion water right should be decreed absolute. Name and Address of Landowner: Applicant. Applicant requests that the Court adjudge and decree that the Rolland Diversion water right be decreed absolute in the full decreed amount of 0.85 c.f.s. for irrigation; or, in the alternative, if the Court finds that the full 0.85 c.f.s. has not been made absolute that the Court adjudge and decree such amount the Court finds has been made absolute by the Applicant and that the Applicant have been reasonably diligent in the development of the Rolland Diversion conditional water right for any amount not made absolute by this Application and that any remaining conditional portion of the Rolland Diversion be continued in full force and effect, and that the Court grant the Applicant such other and further relief as may be appropriate.
